

## Banish Your Pet's Joint Discomfort Naturally

Watching your pet suffer from arthritis, hip dysplasia or other mobility problems can be devastating. The constant pain makes even simple activities extremely difficult for your pet. You see your dog hobble on 3 legs...struggle to get up or lay down...unable to climb into the car...and your heart just breaks. You wish you could help.

Now you can!

Introducing DGP! DGP is an all natural supplement that can help alleviate your pet's joint discomfort and inflammation. This supplement was developed by master herbalists and scientists in Australia. It includes a variety of herbs that have been used for centuries to treat conditions such as rheumatism, arthritis and gout. These herbs are packed with beneficial enzymes, nutrients, amino acids, minerals and vitamins—all which work to provide your pet with long-lasting relief...and a sense of rejuvenation.

### Help Your Dog Regain His Zest for Life

Dogs who suffer from arthritis or other mobility issues are often depressed, sullen and on edge. They sleep excessively and tend to withdraw from the family. But DGP can help change that.

Our customers have repeatedly told us that after taking DGP their dogs regain their playful, carefree spirit. They began to wag their tail, romp in the yard and smile again. They began to love life!

DGP is completely safe and 100% natural. Many of the drugs used to treat joint pain have serious, long-term side effects. They can cause kidney problems, gastrointestinal bleeding, vomiting, diabetes and high blood pressure. But DGP has absolutely no harmful side effects.

Best of all, DGP works fast. Other joint supplements, such as Glucosamine and Chondroitin, can take up to 6 months to provide any form of relief. DGP on the other hand works quickly. Most of our customers have seen spectacular results within one to two weeks...and some even sooner than that!

### Try DGP Risk Free, Plus Get FREE Shipping and Handling

If you're looking for a safe, all natural way to treat your dog's joint discomfort... try DGP risk free for 60 days. If you see no change in your pet's condition, you can return up to one open bottle, and the rest unopened, for a complete refund.

Your dog can experience the amazing benefits of DGP for just \$39.95! Plus you'll get FREE shipping and handling. First time buyers will also receive a 25% discount off their initial order of two bottles. Call today and help your pet regain his zest for life!
