## **New, Shockingly Simple Secrets to Extending Your Leopard Gecko's Life**

**Dear Leopard Gecko Owners,**

Leopard Geckos are the perfect reptile pet. They are easy to care for, have delightful personalities and are relatively attractive looking creatures.

If you own one of these reptiles, you'll soon find yourself becoming deeply attached to it. Your Gecko will become a special member of the family.

But it's up to you to see that your Gecko lives a long, full life.

### **Why Many Leopard Geckos Don't Live Long**

Sadly, many Geckos do not live past a few years. And some never even make it to their first birthday. Why? Because most people simply don't know how to properly care for a Leopard Gecko.

A Gecko is a reptile. It doesn't have the same needs as a dog, cat or a human. A Gecko's nutritional and environmental needs are completely unique. And most people aren't aware of this fact. As a result, many Geckos die prematurely.

## All You Need Is Knowledge

Lengthening your pet's life is not expensive or complicated. All it requires is lots of love, time, dedication and most important of all, **knowledge**. You need to know how to care for your pet...otherwise; you could accidentally kill your beloved Gecko.

Leopard Geckos can actually live for over 20 years. But only if you know the secrets to keeping them healthy and thriving.

### FREE E-course Shows You How to Increase Your Gecko's Lifespan

A recently developed mini-course now offers hands-on tips to help lengthen your pet's life.

This course was carefully developed by a team of expert Gecko researchers. It offers dozens of insider secrets that will help your Gecko live longer and happier. Armed with the proper knowledge, you can provide your Gecko with the proper care and nutrition he needs to thrive.

#### Simple!

The techniques outlined in this mini-course are clear-cut and practical. You don't need to be Herp veterinarian or PhD graduate to implement these strategies. They are simple and incredibly powerful.

#### Affordable!

You don't need a ton of special equipment or expensive gear. NO! These techniques are so cost-effective; anyone can afford to use them.

#### Rewarding!

If you follow these simple secrets, the rewards are immense for both you and your pet.

Your Gecko will live a full and abundant life. And you will gain a long-time friend and companion. But without these life-lengthening techniques, your Gecko could die prematurely...and even suffer in the process.

## If You Want to Learn the Secrets to Extending Your Gecko's Life, Sign Up for This FREE E-course Today

In this exciting, information-packed e-course you'll learn.....

- ✓ What to feed your Gecko on a regular basis
- ✓ Why a varied diet is essential to helping your pet reach his maximum lifespan
- ✓ What types of insects you should NEVER feed your Gecko
- ✓ A simple secret for offering your Gecko maximum nutrition at every meal
- ✓ What temperature a Leopard Gecko really needs to thrive
- ✓ Why humidity is absolutely essential for Leopard Geckos...and what could happen without it
- ✓ How to avoid one "heating" mistake that could literally roast your lizard alive
- ✓ What common household fumes are deadly to your Gecko (these are so common-place you probably never even thought they were dangerous)
- ✓ How your hands could actually poison your Gecko-and how to prevent this from happening.
- ✓ Common-sense precautions you should **ALWAYS** follow when letting your pet out of his cage

- ✓ How to properly hold your Gecko so that he does not break a leg or tail
- ✓ How to make a Gecko First-Aid Kit
- ✓ How to safely transport your Gecko to the vet so he doesn't die on the way
- ✓ And much more!

## **Start Learning These Techniques Immediately**

If you're serious about helping your Gecko live its maximum lifespan... sign up for this free e-course right away.

Simply enter your name and email address in the box above, and you'll start receiving these free, life-saving tips almost immediately.

Each day, a new mini-lesson will be sent to your inbox. We cover one topic at a time so you can thoroughly digest the information and have time to implement the first strategy before learning about another.

By presenting just one method at a time we actually coach you through the process of lengthening your Leopard Gecko's life.

I urge you not to wait...

Your Gecko deserves the best care you can provide. And he may be in danger of a premature death at this very moment. Arm yourself with the proper knowledge to help your Gecko live its maximum lifespan.
