

Protect Your Business With PetAirapy

What is PetAirapy?

- PetAirapy offers UVC light technology germicidal disinfectant and air purifying units. These powerful systems safely and effectively destroy harmful microorganisms that cause canine influenza, kennel cough, parvo, H1M1 virus and a host of other diseases. They also help eradicate molds, pollen, dust and ragweed, which cause severe allergies in cats and dogs.

What Can PetAirapy Do For You?

1. Enhance Your Services.

- Acting responsibly to protect the pets in your care is not an option, it is a necessity.
- PetAirapy can provide you with the peace of mind you need to run your business with confidence. You can rest assured that you are doing everything in your power to keep the pets you care for healthy and happy. This will make your services more valuable to your clients and enable you to command higher fees.

2. Protect Your Reputation & Livelihood.

- If a dog or cat contracts an illness under your care, you could face a series of lawsuits, a damaged reputation and possibly the end of your business.
- Even if certain owners do not press charges, the negative word-of-mouth will definitely hurt your reputation and affect your income.

3. Protect Your Financial Assets.

- If the pets in your facility are exposed to a disease, you could be shut down for weeks, causing significant financial loss. For example, if you board 15 dogs per week @ \$14 a day, you would be losing nearly \$1,500 of gross income on a weekly basis.
- In addition, you may be forced to pay a series of vet bills. Depending on the severity of the illness, treatment can range from \$1,000-\$12,000 per dog. Multiply this by the number of pets who contract the disease and you could lose your net income for 6-12 months and beyond. For example, even if only one third of the dogs who were exposed became ill (5 out of 15), you may be looking at upwards of \$25,000-\$50,000 in veterinary bills. Don't forget you still need to pay your mortgage and operating expenses!
- Think your liability insurance will help out? Think again. All major insurance companies have an exempt clause stating they do not cover illnesses. This means you will be left to face this huge financial challenge alone. Everything you own could be at stake. Even after the outbreak has been eliminated, your customers may refuse to use your services in the future. Your entire clientele could be lost.

The Best Insurance

- By installing a PetAirapy unit in your grooming facility, mobile grooming unit, boarding kennel or veterinary clinic, you can protect the pets that come into your care. PetAirapy ensures that harmful diseases or illnesses will be unable to spread or contaminate your four-legged clients. Our powerful germicidal units will eradicate these microorganisms **BEFORE** they cause any damage. PetAirapy is the most reliable insurance you can buy. And there are no monthly premiums or deductibles. This is a one-time invest, offering a lifetime of rewards. Call today for a free consultation: **630-377-0348**.
